

WORLD CAFÉ WORKSHOP

Epidemiological Methods for Collaboration Networks in Infection Research and Public Health: Perspectives from INFRALINK

When: 24.09.2026 11:00 – 12:30

Where: DGEpi 2026 in Ulm

Register now:

21st Annual Meeting of the German Society for Epidemiology

FOR WHOM IS THIS WORKSHOP?

For epidemiologists, public health researchers and other professionals as well students interested in collaborative, interdisciplinary networking, those who would like to cooperate with public health partners or expand existing collaborations, people who like finding solutions to interprofessional working environment, data exchange, usability and pandemic preparedness.

WHAT CAN YOU EXPECT?

- Short expert inputs
- Perspectives from public health authorities, academia and research institutions
- Small-group discussion in a World Café format
- Joint reflections on practical approaches and collaboration needs

WHY SHOULD YOU ATTEND?

- Gain insights into different perspectives on collaboration between research and public health
- Discuss practical barriers and opportunities for joint studies and data exchange
- Contribute your own experience to interdisciplinary discussions
- identify key variables, collaboration needs and ideas for sustainable networks

**We look forward to welcome you
to our workshop at DGEpi 2026!**

INFRALINK is a collaborative network initiated in 2025, with project partners from research institutes, modelling platforms, public health authorities at local and state levels, as well as virology and infectious disease departments to strengthen
